## WORK EXPERIENCE

### Flutter Developer

Sunstone (Startup)

05/2022 - Present, Gurugram, HR

- Engineered BLE-based attendance automation.
- Developed LMS & Content Library with video progress tracking for mobile and web.
- Implemented Firebase services and worked with web-views in Native and Flutter.
- Experienced with analytics platforms and established infrastructure for deep links.
- Set up Azure pipeline for CI/CD across iOS, Android, and web.
- Ported Flutter app for flutter web.

### SDE

Reliance Jio

02/2021 - 05/2022, Mumbai

- Automation Testing: Developed and maintained automation test scripts for the JioMeet Pro app using Cucumber and Java, ensuring the app's reliability and quality.
- Jio News App: Contributed to the development of the Jio News app, a digital newsstand that provides access to a wide range of newspapers and magazines.

### Flutter Developer

jSimple

02/2021 - 08/2022, Noida

I worked as the sole developer on the following projects:

- AI/ML: Implemented a facial recognition service to recognize user faces for marking attendance.
- Firebase: Integrated and implemented various Firebase services
- Geo-Fencing & Google Maps: Developed a system for marking attendance when a user enters a specific area of the office.

## PROJECTS

### Formula Lockscreen App

02/2020 - 06/2021

Created this native android app from scratch. It displays formulas on Lockscreen so user can remember it easily - [Link](#)

## PERSONAL PROFILE

I have four years of experience in Flutter, where coding is not just a profession but a passion. I have developed I actively explore new technologies, and my adaptability is a key strength as a developer.

## SKILLS

Flutter

Adaptability

Next.js

Firebase

CI/CD

GetX

Fast Learner

Flutter web

Dart

Android

Web scraping

## EDUCATION

B.Tech - CSE,  
Gyan ganga institute of technology & sciences,  
Jabalpur, Madhya Pradesh

CGPA - 7.89
